This application contains sequence disclosures that are encompassed by the definitions for nucleotide and/or amino acid sequences set forth in 37 CFR 1.821(a)(1) and (a)(2). However, this application fails to comply with the requirements of 37 CFR 1.821 through 1.825 for the reason(s) set forth on the attached Notice To Comply With Requirements For Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures.

Figure 1 contains nucleotide and amino acid sequences which are encompassed by the Sequence Rules and which are not included in the Sequence Listing. 37 CFR 1.821(b) requires that applications which contain nucleotide and/or amino acid sequences, in accordance with the definitions in paragraph (a) of this section, conform exclusively to the requirements of §§ 1.821 through 1.825. 37 CFR 1.821(c) requires each nucleotide and/or amino acid sequence which is present in an application (which is subject to the Sequence Rules in accordance with the definitions of paragraph (a) of this section) be represented in the Sequence Listing with a SEQ ID NO:. Nucleotide and amino acid sequences which are in Figure 1 are not represented in a Sequence Listing. Furthermore, claims 1-8 refer to nucleotide sequences; sequence compliance requires that reference to a sequence in the specification or claims must use the assigned identifier for that sequence (SEQ ID NO:) (see paragraph (d) of this section.

Applicant is required to submit a paper copy of the Sequence Listing, a computer readable form (CRF) of the Sequence Listing, and a statement which indicates that the content of the paper copy and the CRF are the same and include no new matter. Furthermore, the specification must be amended to include the paper copy of the sequence listing, as well as include the sequence identifiers wherever a sequence is mentioned or referred to.

APPLICANT IS GIVEN ONE MONTH FROM THE DATE OF THIS LETTER WITHIN WHICH TO COMPLY WITH THE SEQUENCE RULES, 37 CFR 1.821 - 1.825. Failure to comply with these requirements will result in ABANDONMENT of the application under 37 CFR 1.821(g). Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136. In no case may an applicant extend the period for response beyond the six month statutory period. Direct the response to the undersigned. Applicant is requested to return a copy of the attached Notice to Comply with the response.

☒ 3. A copy of the "Sequence Listing" in computer readable form has not been submitted as required by 37 CFR 1.821(e).

☐ 4. A copy of the "Sequence Listing" in computer readable form has been submitted. However, the content of the computer readable form does not comply with the requirements of 37 CFR 1.822 and/or 1.823, as indicated on the attached copy of the marked-up "Raw Sequence Listing."

☐ 5. The computer readable form that has been filed with this application has been found to be damaged and/or unreadable as indicated on the attached CRF Diskette Problem Report. A substitute computer readable form must be submitted as required by 37 CFR 1.825(d).
